# Read the following passage, then answer the questions:

Mini Forest is an organization which plants small areas of trees in the our cities. These special green areas help people enjoy nature and help our wildlife – like plants, animals, and other living things. At Mini Forest, we always work hard to find the best urban locations for our forests, where people and wildlife need nature most. We never grow foreign plants in our projects, we always plant trees that grow naturally in an area and we carefully look after them until they become a small forest. We also usually work with local communities to plant and look after the forests over time.

#### Tapescripts

- Mangoes grow in Egypt. We can make a lot of drinks and dishes with it. We can make delicious mango juice or cocktail juice. We can also make a fruit salad and a mango cake. Mango juice is my favourite drink.
- Our apartment is in the city center, just next to a really cool park called The Meadows. It's on the third floor and the park is on the other side of the street, so we have a great view over the trees. People use the park a lot for sports and meeting friends, so there's always something to see there. In the distance, we can see the famous Edinburgh Castle, too!
